Art Unit: 2833

1. Claims 1 and 2 are objected to because:

- On line 6 of claim 1, it appears that “groups” should be -materials- since no groups are listed.
- On line 3 of claim 2, the spelling of based should be corrected.

Appropriate corrections are required.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Enomoto, et al. Enomoto discloses an electrical cable including a conductor made of aluminum (paragraph 5) and covered with PBT (paragraph 5). The arrangement is intended for use in a vehicle (paragraph 2). The location of this connection arrangement is not specified; the cable is not specifically mounted in an electrical connection box. However, it is well known to protect wire terminal connections, especially those in vehicles, in connection boxes. In fact, in many uses, it is required by code to place the connections in connection boxes for protection. Therefore, it would have been obvious to locate the connection described by Enomoto in an electrical connection box. In addition, as wire arrangements of this type are often used in automobiles, it would have been obvious that the vehicle be an automobile.

4. Claims 2 and 3 contain allowable subject matter. The prior art fails to show or teach an aluminum-based metal conductor placed in an insulation displacement terminal and having welding material therebetween.

5. Applicant's amendment necessitated the new ground of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL.**

Art Unit: 2833

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
